PROJECTS

- <u>Personal Portfolio Website</u>
- <u>Project Description:</u> Developed and deployed a responsive personal portfolio website using HTML, CSS, and JavaScript. Showcases my education, skills, and projects with an integrated contact form. Hosted on GitHub Pages for easy access and professional presentation.

- <u>E-commerce Web Application</u>
- <u>Project Description:</u> Developed a feature-rich e-commerce website using React.js. Employed functional components, useState and useEffect hooks for state and side-effect management, and React Router for navigation. Integrated Axios for API data fetching, with product search, price filtering, and add-to-cart functionality. Implemented user authentication using Firebase and stored signup details in Firestore for secure data handling.
